Bio: I enjoyed my 4 years at Lane even though I had to take 3 buses to get there. I met great friends at Lane and many of them I still see today. I met my wife Elaine when I was in my junior year and we are still married after 46 years. I met my best friend, Nick Polizzi in my first year. We were locker partners for 4 years and we played football together. Nick and I dated our wives while we were in high school and we are still best friends today. I enjoyed playing football and in being in the 1958 playoffs in Soldier Field. We lost to CVS in the semi-final game - 13 to 9 – Bummer! I went to college in the Chicago area and had a great career there with 42 years with the same company. My family and friends occupy much of my time now and I enjoy it.

Bio: I enjoy flying my aircraft and riding my Honda Goldwing. I work as a part time usher at the Allstate Arena in Rosemont, IL. I get to see all the shows and concerts free and get paid for it too. Retirement is great. I still have all my flying benefits from American Airlines. We travel all over the world and see a lot of great sights along with meeting a lot of interesting people. I belong to three gun clubs and we shoot rifle, pistol, and shotgun competitively throughout Illinois and Wisconsin. The only bad thing is my wife out-shoots me in rifle and shotgun. Her trophy room is bigger than mine.
